10. Declaration of Jeffrey P. Weaver, P.E.

11. Declaration of Antonia C. Zawisa.

Pennsylvania Department of Transportation

Internet E-Mail
Using Softswitch and
Open Addressing

Softswitch is a software product that allows authorized users to send and receive electronic mail from OfficeVision to Internet users. No attachments, files, or graphics can be sent, notes only. Softswitch authorization can be obtained by contacting the Bureau of Information Systems, User Services Unit. Internet access is not required to use Softswitch.

Two methods of sending Internet E-Mail

1. Open Addressing Method

The Open Addressing method must be used when an Internet user is not registered through Softswitch. Once the message has been sent and the recipient has replied they are registered. Please note the user ID assigned by Softswitch, this is the address you need for the registered method.

2. Registered Method

Once an Internet user is registered by Softswitch the registered method is used to correspond. The user ID assigned by Softswitch and Inetmail will be the address for correspondence.

USERID@PENNDOT.STATE.PA.US will be all PennDot employees E-Mail address. USERID will represent your current racf userid.

To send Internet E-Mail using *Softswitch*

```

Before you can send mail to an Internet user, the user must be *registered*. A user is registered when they send you mail first. SoftSwitch will add their name and Internet ID to a list of other registered users Once a user is registered, anyone with Internet mail access can send to him. However, if this is not possible, you can send a user mail the first time by sending it in *Open Address* mode. It would be wise to include in your correspondence a line asking for the recipient to reply back, thus registering him with SoftSwitch. *Open Address* mode will be explained below.

Under *User ID* type *OPEN* and under *Address* type *ADDRESS*. This will allow you to send mail in the *Open Address* mode. Use this mode ONLY when the recipient has not yet sent you mail. Press *F3* to create the note.

 To:       Trish Plouse  hotmail.com

 Trish:
     Please respond to this message.  When you do, you will be registered with
 SoftSwitch and I can send Internet mail to you.  This method (Open Address) is
 ONLY for first contact to have people reply back to me and become registered.

 PF1=Help        2=Recipients 3=File      4=Mark Text  5=Cmd Line   6=Send+Quit
 PF7=Backward    8=Forward    9=Send+File 10=Add Line   11=Splt/Join 12=Quit
 DMDE062I Top of note
 ===>
 MB█    a                                                             20/ 003
```
    This is the way you would send the mail through Open Addressing. The first line
of text MUST read *address:* .This tells Softswitch that the Internet address follows. The
next line MUST read *to nativename=* . This is where you will type in the persons
Internet E-Mail address from their business card or stationary. Note that after
nativename there are NO SPACES! You MUST type in the Internet E-Mail address
EXACTLY as it is shown on the business card or letterhead. **ANY** mistakes will make
this message undeliverable. The next line MUST read *pn=* . This stands for personal
name and you MUST type in ONLY 2 names here. Softswitch is looking for a FIRST
NAME and a LAST NAME ONLY! Do NOT use *Mr., Mrs. or Ms.* or any other title. The
next line MUST read *address:* . This tells Softswitch that this is the end of the Internet
address.

    Now you can type the message you want to send. It's a good idea to include in
your message your name and location since SoftSwitch will NOT put these in for you.
When you are finished, press the F6 or F9 key to send the mail as you normally would.

```

When the person replies back to you, Softswitch will deliver the mail just as you are used to seeing it through OfficeVision. Make a note of the persons ID and Address. This is the ID and address you will use to send Internet mail to this person in the future. As was mentioned before, *Open Addressing* is ONLY used to get the person to respond the first time.

The above screen and following page will appear when
the OPEN ADDRESS recipient responses to your message

This is the header on Internet mail coming into PennDOT. Notice at the top the address is first and the User ID is last. Remember, this is the mail ID and address you will need to use to send Internet mail to this person in the future. All the other information is added by the senders Internet mail provider.

```

Sending Internet mail to *Registered Users* is easier than using the *Open Address* method. Once someone sends mail to you, they are registered in the Softswitch registry. When this happens, anyone with Internet Mail authorization can send Internet mail to this person.

```

This is where you will enter the user ID that Softswitch assigned to your correspondent when they replied to your message. This ID is usually the same as their regular Internet E-mail ID but not always. So, it is very important when someone replies to your E-mail that you make a note of their returning E-mail ID and address. The address here will always be INETMAIL. Press the F3 key to edit the note.

```

Here is a copy of the note I am sending. Note the ID and address on the T0: line. This is the ID assigned by Softswitch to this particular user. The Address is always INETMAIL when sending E-Mail to a registered user. Anyone who is an authorized OfficeVision user can send E-Mail to this person by using this ID and Address.

When you are finished, press the F6 or F9 key to send the mail as you normally would.

DECLARATION OF JOHN BACHMAN

     John Bachman, declares and says:

     1.   I am presently a Highway Design Manager for the
Pennsylvania Department of Transportation's District 8-0 office.
I have held this position since the fall of 1999.

"Exhibit 2"

2.   As Highway Design Manager, I manage projects designed by consultants. The I-81 Interchange project is one of these projects. I also supervise 3 project Managers and their supporting staff.

3.   Prior to the fall of 1999, I did not have an active role in the I-81 Interchange project.

4.   I have never used the CICS e-mail system for any project.

5.   I have never directed any of my staff to send any e-mails on the CICS e-mail system on my behalf for the I-81 Interchange project located in Franklin County, Pennsylvania.

I declare under penalty of perjury and pursuant to 28 U.S.C. 1746 that the foregoing is true and correct. Executed on this ___27___ day of March, 2002.

DECLARATION OF MICHAEL S. GILLESPIE, P.E.

     Michael S. Gillespie, P.E., declares and says:

     1.   I am the Portfolio Manager for Design for the
Pennsylvania Department of Transportation's District 8-0. I
have held this position since October 30, 1999.

"Exh. 4"

2.   As the Portfolio Manager for Design, my
responsibilities with respect to the I-81 Interchange project
included: updating the project schedule on a quarterly basis in
regularly scheduled District project status meetings.

3.   From July, 1999 to October 30, 1999, I was the
District Design Services Engineer and I also acted part-time as
the Assistant District Engineer for Design on a rotational basis
with Jeffrey P. Weaver, P.E.

4.   As the District Design Services Engineer and part-time
Assistant District Engineer for Design, my responsibilities with
respect to the I-81 Interchange project included: participation
in a quarterly design status meetings at which the project
managers discussed all the projects that were under preliminary
or final design in District 8-0. The I-81 Interchange project
would have been discussed at these meetings in a summary
fashion.

5.   From November 1, 1997 to October 30, 1999, I was the
District Design Services Engineer.

6.   As the District Design Services Engineer, my
responsibilities with respect to the I-81 Interchange project
included: responsibility for the District's Environmental Unit
and other service units. At this position, I participated in a
quarterly design status meetings at which the project managers
discussed all the projects that were under preliminary or final
design in District 8-0. The I-81 Interchange project would have
been discussed at these meetings in a summary fashion. At this
position, I did not participate actively in the I-81 Interchange
project, i.e., I was not involved in the PennDOT decision-making
process for the project. I did not participate in any project
specific meetings with regard to the I-81 Interchange project.

7.   From February, 1992 to November 1997, I was the
Planning and Programming Engineer.

8.   As the Planning and Programming Engineer, my
responsibilities with respect to the I-81 Interchange project
included: responsibility for programming the Twelve Year Program
on a bi-annual basis. At this position, I participated in a
quarterly design status meetings at which the project managers
discussed all the projects that were under preliminary or final
design in District 8-0. The I-81 Interchange project would have
been discussed at these meetings in a summary fashion. I did
not participate in any project specific meetings with regard to

the I-81 Interchange project. At this position, I did not participate actively in the I-81 Interchange project, i.e., I was not involved in the PennDOT decision-making process for the project.

9.   From January 1986 to February ,1992 I was the Assistant District Traffic Engineer.

10. As the Assistant District Traffic Engineer, my responsibilities with respect to the I-81 Interchange project included: review preliminary traffic control plans.

11. I have used the CICS e-mail system since February of 1992. I have no messages saved which relate to the I-81 Interchange project located in Franklin County, Pennsylvania.

I declare under penalty of perjury and pursuant to 28 U.S.C. 1746 that the foregoing is true and correct. Executed on this 29th day of March, 2002.

                                        Michael S. Gillespie

DECLARATION OF CHRISTIE PERRY

Christie Perry, declares and says:

1.   I am the Environmental Manager for the Pennsylvania Department of Transportation's District 8-0 office. I have held this position since March 10, 1983.

"Exh. 6"
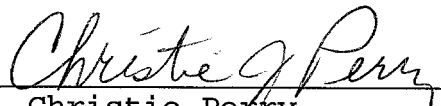

2.   As the Environmental Manager, my responsibilities with respect to the I-81 Interchange project included the following. I worked as a member of the selection committee for the consultant selection process and reviewing the consultants' scopes of work for the project. I was a member of the engineering, environmental scoping team, which determined the appropriate level of environmental action and technical analysis based on information available at the time. I was a member of the Cultural Resources, Farmland/Secondary Impacts, and Public Information /Involvement groups which suggested to the Internal Management Team the timing and appropriateness of activities and technical documentation required for these topics. I was a member of the Internal Management Team that guided the day-to-day operations for the project. I reviewed the handouts and displays for meetings along with other District 8-0 staff. I attended the public meetings and public hearings for the project as a technical advisor, if required. I attended the Municipal Coordination Committee meetings to answer questions. I was the initial reviewer and provided comments for revision for some of the technical reports and environmental documents prepared by consultant staff. I was a concurrent reviewer with district staff, Central Office staff, and FHWA staff on some documents. I was one of the staff that reviewed the comments that were received from state and federal agencies, municipalities, organizations and citizens and helped PennDOT Central Office and FHWA develop answers to some of the concerns. I worked with FHWA staff and the Pennsylvania Historic and Museum staff to develop mitigation measures for the historic resources.

3.   I have never used the CICS e-mail system for this project.

4.   I have never directed any of my staff to send any e-mails on the CICS e-mail system on my behalf for the I-81 Interchange project located in Franklin County, Pennsylvania.

I declare under penalty of perjury and pursuant to 28 U.S.C. 1746 that the foregoing is true and correct. Executed on this _____ day of March, 2002.

DECLARATION OF JAY W. SMITH, P.E.

        Jay W. Smith, P.E., declares and says:

        1.   I am presently the Chief for the Highway Quality
Assurance Division of the Pennsylvania Department of
Transportation's Bureau of Design. I have held this position
since August 1998. As Chief, I had no direct responsibilities
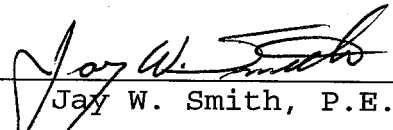

"Exh. 9"

with the I-81 Interchange Project other than supervising the Project Development Engineer involved in the Project.

2.   From 1987 to 1998, I was a Project Development Engineer for the Highway Quality Assurance Division of the Bureau of Design. As the Project Development Engineer, my responsibilities with respect to the I-81 Interchange project included: The review of environmental documents, preliminary design and coordination activities between FHWA and the Department.

3.   I have never used the CICS e-mail system for any project.

4.   I have never directed any of my staff to send any e-mails on the CICS e-mail system on my behalf for the I-81 Interchange project located in Franklin County, Pennsylvania.

I declare under penalty of perjury and pursuant to 28 U.S.C. 1746 that the foregoing is true and correct. Executed on this 22nd day of March, 2002.

DECLARATION OF JEFFREY P. WEAVER, P.E.

Jeffrey P. Weaver, P.E., declares and says:

1.   I am the Assistant District Engineer for Design for the Pennsylvania Department of Transportation's District 8-0. I have held this position since October 30, 1999.

"Exh. 10"

2.   As the Assistant District Engineer for Design, my
responsibilities with respect to the I-81 Interchange project
included: participation in meetings related to the design of
the project and preparation for, and participation in, the ALCAB
hearing for the project.

3.   From July, 1999 to October 30, 1999, I was the
District Design Portfolio Manager and I also acted part-time as
the Assistant District Engineer for Design on a rotational basis
with Michael S. Gillespie, P.E.

4.   As the District Design Portfolio Manager and part-time
Assistant District Engineer for Design, my responsibilities with
respect to the I-81 Interchange project included: participation
in project related meetings.

5.   From July, 1997 to July, 1999, I was the District
Project Development Engineer.

6.   As the District Project Development Engineer, my
responsibilities with respect to the I-81 Interchange project
included: occasionally participated in project specific meetings
for the I-81 Interchange project. At this position, I regularly
participated in a quarterly design status meetings at which the
project managers discussed all the projects that were under
preliminary or final design in District 8-0. The I-81
Interchange project would have been discussed at these meetings
in a summary fashion. I did not participate in a project
specific meeting on the I-81 Interchange until February 25,
1998.

7.   From December, 1991 to July, 1997, I was the District
Design Services Engineer.

8.   As the District Design Services Engineer, my
responsibilities with respect to the I-81 Interchange project
included: responsibility for the District's Environmental Unit.
At this position, I regularly participated in a quarterly design
status meetings at which the project managers discussed all the
projects that were under preliminary or final design in District
8-0. The I-81 Interchange project would have been discussed at
these meetings in a summary fashion. At this position, I did
not participate actively in the I-81 Interchange project, i.e.,
I was not involved in the PennDOT decision-making process for
the project.

9.   From July, 1984 to December, 1991, I was the District Planning and Programming Engineer.

10.   As the District Planning and Programming Engineer, my responsibilities with respect to the I-81 Interchange project included: coordination of the development of the overall Twelve Year Program for the District. At this position, I participated in a quarterly design status meetings at which the project managers discussed all the projects that were under preliminary or final design in District 8-0. The I-81 Interchange project would have been discussed at these meetings in a summary fashion. At this position, I did not participate actively in the I-81 Interchange project, i.e., I was not involved in the PennDOT decision-making process for the project.

11.   I have used the CICS e-mail system from 1990 or earlier until December, 2001. From November 22, 1996 until April 27, 2001, I was in the habit of saving messages sent and received. I have saved 724 messages on the CICS e-mail system during this time period, none of which relate to the I-81 Interchange project located in Franklin County, Pennsylvania. Prior to November 22, 1996, I have two saved messages, neither one of which relates to the I-81 Interchange project. Subsequent to April 27, 2001, I have two saved messages, neither one of which relates to the I-81 Interchange project.

I declare under penalty of perjury and pursuant to 28 U.S.C. 1746 that the foregoing is true and correct. Executed on this __27__ day of March, 2002.

Jeffrey P Weaver, P.E.

DECLARATION OF ANTONIA C. ZAWISA

    Antonia C. Zawisa, declares and says:

    1.   I am a District Environmental Specialist for the
Pennsylvania Department of Transportation's Bureau of Design. I
have held this position since March of 2000.

"Exh. 11"

2.   As District Environmental Specialist, my responsibilities with respect to the I-81 Interchange project included: participating as a reviewer of draft and final versions of the Farmland Assessment Report and handouts for the ALCAB Hearing and providing technical assistance during preparation for the ALCAB Hearing. I also attended the ALCAB Hearing.
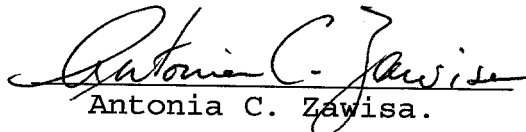

3.   From 1993 through March of 2000, I was an Environmental Planning Supervisor with PennDOT's Bureau of Environmental Quality.

4.   As an Environmental Planning Supervisor, my responsibilities with respect to the I-81 Interchange project included: participating as project team member; attending some team meetings; providing technical assistance on issues regarding farmland impacts; and reviewing the Farmland Technical Basis Report.

5.   I have never used the CICS e-mail system for any project.

6.   I have never directed any of my staff to send any e-mails on the CICS e-mail system on my behalf for the I-81 Interchange project located in Franklin County, Pennsylvania.

I declare under penalty of perjury and pursuant to 28 U.S.C. 1746 that the foregoing is true and correct. Executed on this _____ day of March, 2002.
